Reasons for Allowance

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art does not disclose a feed metering device including a feed unit for containing animal sustenance, an entrance opening to the feed unit, and a feed supplying device, with the feed metering device having a closing means movable across the feed unit entrance opening by rotation about an axis so as to deter an animal from using the unit, the closing means being rotated by a motor-driven roll in contact with it. Prior art references include rotating trays that present predetermined amounts of food to animals through access openings in covers but lack feed supplying devices, as well as a conveying apparatus with feed drops and valve members. None include the combination of elements recited above in conjunction with the instant invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
